## Pad-A-Lap Press Model #380

Save time and reduce reworks with PSI's Pad-A-Lap Press. This space saving air press, safely and consistently secures fining and base pads without wrinkling. Hand applying pads is time consuming and sometimes difficult due to the different pad backings. If not applied correctly, a wrinkled pad can cause aberrations that increase spoilage rates. The Pad-A-Lap Press's soft, conforming urethane rubber plug insures a proper wrinkle free pad application in only 15 seconds.

### Features & Benefits

- Saves time and money by consistently securing pads in only 15 seconds.
- Soft urethane rubber plug conforms any pad to any lap eliminating aberrations caused by pad wrinkles.
- Dual hand actuation buttons for operator safety meet OSHA Standards.
- Easy to maintain with quick connect airline fittings and easy access water trap for quick draining.
- Sturdy 3/8", 5 gauge stainless steel housing with adjustable leveling feet for long life and trouble free service.
- Field proven and reliable with high quality air valves, controls and air cylinder.

### Specifications:

Housing:	15 gauge stainless steel
Base:	3/8" stainless steel
Feet:	adjustable leveling
Air Supply:	80 psi minimum
Actuation:	dual hand safety buttons
Cycle Time:	15 seconds
Weight:	66 lbs.
Dimensions:	16" H x 15" W x 13" D
