

Practical Laps

The Practical Lap from PSI is molded from a specially formulated, extremely strong material that is approximately one half the weight of aluminum. We have designed the plastic lap base with two 5/16 inch square by 2 inch long plated steel braces insert molded into the bottom of the lap to ensure stability during the clamping and cutting process. Practical Laps are color coded for efficient storage and retrieval.

Features & Benefits

- Color-coded for efficient storage and retrieval; 2 - Red, 6 - Green, 10 - Gray.
- Reduce inventory to 3 bases.
- Steel braces ensure stability during the clamping and cutting process.
- Cutting times reduced to 1 to 2 minutes depending on the curve.
- The Practical Lap can be cut in one pass to an accurate curve consistently, without regard to clamping pressure.
- Lightweight to reduce wear and tear on cylinder machines.
- Pads are easier to remove.
- Resists dents and nicks during lens processing reducing the need to retrue tools.

Specifications:

Part #	Description	Size	Base Curve	Color	Pkg. Qty.	Price
MB2001-2B	semi-finished, round	3.00"	2	Red	1	\$5.25
MB2001-6	semi-finished, round	3.00"	6	Green	1	\$5.25
MB2001-10	semi-finished, round	2.75"	10	Gray	1	\$5.25
MB2001-2.50	semi-finished, round	2.50"	10	Gray	1	\$6.50
MB2001-2.25	semi-finished, round	2.25"	10	Gray	1	\$6.50

Quantity Discounts Available
Finished Laps \$7.50 and up
