

## SoLo Blocking Wax Part #125

SoLo Blocking Wax is a non-toxic, reusable bonding medium for use in wax blockers. This opaque blocking wax flows easily through the blocker and holds well throughout processing on all types of lenses. It bonds tightly but removes easily without warming, leaving little or no residue on the lens. The wax is pliable and doesn't crumble, keeping water and polish clear of contaminants.

### Features & Benefits

- Pliable wax medium that does not crumble or become brittle reducing contaminants in water and polish.
- Flows easily through the blocker and holds firmly during processing.
- Bonds tightly with all types of surface tapes as well as bare lens surfaces.
- Easily melts at 130-140° F.
- Removes easily without warming, leaving little or no residue on the lens making it safe for AR coating.
- Non-toxic, reusable and economical.

### Specifications:

Part #: 125  
Quantity: 1 gallon (8 lbs.)  
Color: opaque  
Melting Point: 130 - 140° F
